

Honorable Judge Greg N Stivers
Chief District Judge
United States District Court for Western District of Kentucky

Dear Honorable Judge Stivers,

My name is Alan Setlin I am 89 years old. Over my long successful career, I have been the president of two public companies. I have also the president or main exec of the leading life insurance organizations in the united states such as C.L.U, and MDRT I am a husband, father , grandfather,great grandfather and most proud, veteran.

I have known Faraday for over 26 year and think of her like a daughter. She worked for one of my public companies and I had the pleasure to get to know her very well. She has kept in regular contact with me over the years. She is a kind and loving, an extremely hard worker and very smart young lady. I would hire her again today without hesitation. I trust her completely and love her very much.

I can say for certain that Faraday would never have knowingly become involved with anything she believed was dishonest. That would be completely against her nature and all I know about her.

To incarcerate Faraday and take her away from her husband Dave and her mother would be a complete miscarriage of justice. I hope you will show Faraday the same kindness, compassion and wisdom in your decision as I would for her. Please take into account my complete testament as to this young lady's good character.

Thanking you in advance,

Sincerely,

Alan Setlin
