Dear Honorable Judge Stivers,

We'd like to share information with you about our friend and business associate Faraday Hosseinipour

We have known Faraday Hosseinipour a little over 7 years. We met her and her husband Dave when they soon after they launched the travel company Travelution. One of our dear and close friends contacted us about Travelution and introduced us to Faraday. We realized Faraday was a truly genuine and sincere person and very caring. From the moment we joined Travelution and started working with Faraday, we found a supportive friend and business partner.

For many years we became part of several businesses and felt that leadership or those at the helm were only interested in their personal gain. We were searching for an honest business to become part of where there was a sense of caring more for the team than themselves, and that is something we found in Faraday. She fostered an environment where we felt like part of a family. Faraday's heart of gold was an inspiration to us. She is selfless and always willing to help anyway she can. She inspired us to learn the travel business so that we could become travel advisors and not only travel agents. Faraday demonstrated love and caring for both of us as part of the Travelution Family with focus on team and helping one another, without greed and envy but with a focus on care and attention for each person to have the skills, training and tools to succeed. During our growth process Faraday was very generous during our low points and was always willing to lend a hand and give guidance to ensure our success.

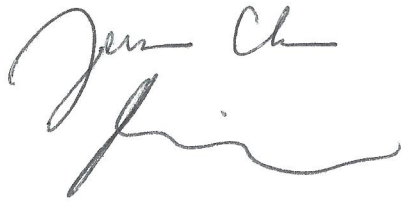

We have travelled many places together in our roles as travel agents including internationally. We have been through life's joys together and life's most sorrowful moments. We have shared laughter and tears. Like during our travels to Dominic Republic, cruise ships inaugural sailings, many training events hosted by industry suppliers. During these travels we have bonded and shared birthdays, anniversaries and other significant life's events. Faraday was even very supportive during family loss. We have got to know each other on a very personal level. She cares about my family and we care about hers.

Some of the things you should know about Faraday is that she has an enormous heart and would help anyone in need. We have personally experienced her caring heart, when we experience difficult financial times. She always made herself available whenever we asked on a moments' notice like the time our mortgage was behind. We merely mentioned our issue, and she offered to assist. Her kind heart extends even to rescue animals. She has rescued 2 Chihuahuas and 4 cats. I remember the time she almost had a heart attack when I, Jerome, was going to step on a spider. She wanted to rescue the spider, she literally stepped in the way, knelt down to the floor, pick the spider up and carried it outside and released it.

We have always found Faraday to be fair, honest and exceedingly trustworthy. We have never witnessed anything that suggests she would lie or deceive anyone. We have, in fact, witnessed Faraday exhibit these good character traits sometimes to a fault. We consider Faraday to be a great friend and a great person and extended family.

Faraday is a kind woman who cares deeply about her family, and business partners and they all rely on her. Judge Stivers, we hope and pray you will take this letter into consideration as Faraday stands before you in your courtroom. She has a great purpose to fulfil in service to others. There is no purpose to be served to incarcerate Faraday Hosseinipour.
