

Honorable Judge Greg N. Stivers
Chief District judge
US District Court for Western District of Ky

Dear Honorable Judge Stivers,

My name is Moses Harrison.

I am currently own the Amenity Service Company serving the Watermill Home Owner Association.

I also have lived in the Watermill neighborhood in Jacksonville, Florida for the last 19 years. I have known Faraday and Dave and been friends with them for the 19 years. I know Faraday to be committed to honesty, integrity and transparency. I know her to be big-hearted, kind, caring, loyal and trustworthy.

I met Faraday when I was serving on the board of directors for Watermill. At the time, there were some board members with special ties to our original management company. Over many years with the same board members, activities with growing conflicts became apparent. I resigned from the board and began to serve the community as the amenity center management.

Fiscal mismanagement depleted the community reserve funds. Faraday was morally offended over board activities she felt abused the trust of the community. Faraday has a strong sense of right and wrong and she chooses right every time. She determined that the lack of integrity was not acceptable and the board needed to be replaced. She found strong honest, community focused candidates and went out to personally speak to hundreds of neighbors and get their votes so that positive changes could happen for our community. As a result of her singlehanded actions, a new honest board was elected and the changes that followed truly saved our community both financially and ethically. The measures that were taken by her actions have forever safeguarded our community.

As the Amenity manager, I have had almost daily contact with Faraday who is a regular swimmer. As such, I know her and her husband very well and consider them both to be salt of the earth, big hearted, caring, active and responsible community members. Her actions resulted in a pay raise for the amenity center which allowed me to bring on much needed help. They continue to support me in my efforts to achieve great improvements for our community. Faraday is always pro-active to find solutions to problems and make the community a better place to live for residents.

Faraday is kind and encouraging to everyone around her. She encourages them with their physical fitness, or through their personal struggles. We have all experienced our share of suffering and challenges and I know Faraday is the first to call and check on you and see if you are okay and offer her support. She has truly cared about me and my family and has called to check on me during difficult times throughout the years. I had no idea of the difficult challenges Faraday was going through- and she never told me she was in Owensboro Kentucky when she called me in the hospital this summer when she found out I had taken a serious fall from a tree. She wanted to make sure I was okay and never mentioned her personal circumstances at that very time.

Her caring about people is equally matched to her caring about animals. I remember when she rescued Sonny, a starving dumped kitten with a tumor on his stomach. The kitten was so starving he ate a ham sandwich we gave him. She gave that kitten a wonderful home and Sonny became a beloved fat cat.

Honorable Judge Greg N. Stivers
Chief District judge
US District Court for Western District of Ky

Faraday truly has a heart of gold. She always has others backs and I believe in her and trust her completely.

Please act judiciously and take my letter into consideration as you could not possibly know her and her heart like I do – and so many others do as well.

Thank you for your kind consideration

Moses Harrison
